“ Not long after I began working for the College, I met Carol. She was most definitely a "one of a kind" person! She had a voice that could scratch glass but she was candid and forthcoming in the nicest way. She made a point of proudly saying that she was the first employee of the College the first day it opened. Although she wasn't the first person hired, her claim to fame was that she turned on the lights the very first morning!

She was a joy to be around, and a hoot when it came to telling stories, especially about co-workers and the embarrassing things they did (and thought that no one knew about).

Anyone who knew her and called her "friend" was indeed a friend. She was fiercely loyal that way. She is on my list of "most unforgettable" people!

“ Carol and I met in 1983 when I first came to work at Thomas Edison. We found out by talking that our mothers were best friends back in the day. Carol shared many memories with me about my mom that I hadn't known since she had passed away at a very young age. Carol recalled dancing with my father at a wedding when she was a child and my mom was there and was pregnant. We never did figure out if it was me who she was pregnant with but from that point forward, Carol and I were great friends. I will always remember her good heart, her loyalty to her friends and family, her wicked sense of humor, sharing secrets, and sharing so many laughs and good times together. I will miss her dearly. She was one-of-a-kind and a beautiful person.

“ I moved here in 1996 and met Carol we became friends and share 23 years of memories. At the same time we had grandchildren, shared many secrets, and laughs. She was always there for me to talk to about anything and everything. She was the first to call me on my Birthday, other Holidays and always the anniversary of my daughter Danielles day she passed. Now it is painful to walk out the front door and see her house and no she is not here. My entire family will always remember her, and will miss her.
